The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-36, 39 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 25-30 of U.S. Patent No. 7029646. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim common subject matter; due to the similarity of the processes, some cutting appears to occur during SWNT functionalization.

Claims 1-36, 39 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 16-20, 30-42 of U.S. Patent No. 6827918. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim common subject matter.

Applicant's arguments filed 8/8/07 have been fully considered but they are not persuasive.

The claims of the other patents are also to methods.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
